## transform your space for modern living with chic and contemporary panel blinds

A versatile and contemporary way to control light, glare, view and privacy. The panel blind provides an innovative shading solution for larger windows and patio doors that looks fantastic in both contemporary and traditional settings.

A panel blind also looks stunning as a room divider that can be used to great effect in creating new living spaces within a modern home.

When open, the panels stack neatly behind one another allowing maximum light to enter the room. Sliding the panels into the closed position creates a unique fabric screen that provides light control and privacy.
